Tables

Second and third generation managing directors: Helmut, Werner and Joachim Link (from left to right)

The ideas of a Swabian businessman and developer are embarking on an international journey. We are talking about attractive and healthy seating, whether we use it to work, think, discuss, argue or relax - about a chair that actively supports us at what we are doing.

Innovations from Interstuhl are conceived, tested and refined in an interesting combination of think tank and expert laboratory. This is what makes us so unique. As the managing director and owner, Werner Link, puts it so simply, "we understand more about sitting." A telling statement that has its origins back in 1961: the contract was to design a relaxing chair for the workers of a textile factory. There has been a genuine interest in the chair, the person using it, and a deeper understanding of the two ever since. This attitude and the depth of knowledge amassed in the meantime does not stop at chairs. The ideal complement to the portfolio is obviously a line of tables.

We have acknowledged this fact by developing a line of high quality tables and table systems that make a sensible and aesthetically pleasing design complement to a wide range of collections.

Scientific development in dialogue with leading research institutes is what distinguishes the seating culture of our brand. The unique breadth and depth of our collection is the result.

He who understands more about sitting, has studied it in detail. Interstuhl is such a company and will remain so: a world away from corporate affiliations and concerns about globalization. Over 500 employees craft exclusive German goods and they do so in Germany. Anyone who understands more about sitting should rise up. Rise above the tired old clichés about quality and materials. It is what it is, and what it is is very good.

Fascino-2 sets high standards: a fixed table leg system that is both open and diverse. A program designed for higher class seating and an executive working style. Light and intriguingly delicate, each model is a definite enhancement at a conference or meeting. Modern and transparent is also the philosophy behind the table - a space to think, move, talk and act.

An individual in both presentation and finishing, Fascino-2 is the perfect table for every idea and concept. A range of dimensions, tops and surfaces create many different environments. Either a solitary highlight or the perfect table group for conferences. As a rectangle, shallow oval, full oval,

ellipse or round. With a satin glass top, quality wooden veneer, or durable laminate finish and stable cast aluminum frame. All models with wooden or artificial surfaces are equipped with electrical connections and cable ducts. Beauty inspires.

Fascino-2 in the large ellipse conference version with a walnut surface. An exclusive table for conferences where style and interiors have an impact. Combined here with Axos conference chairs.

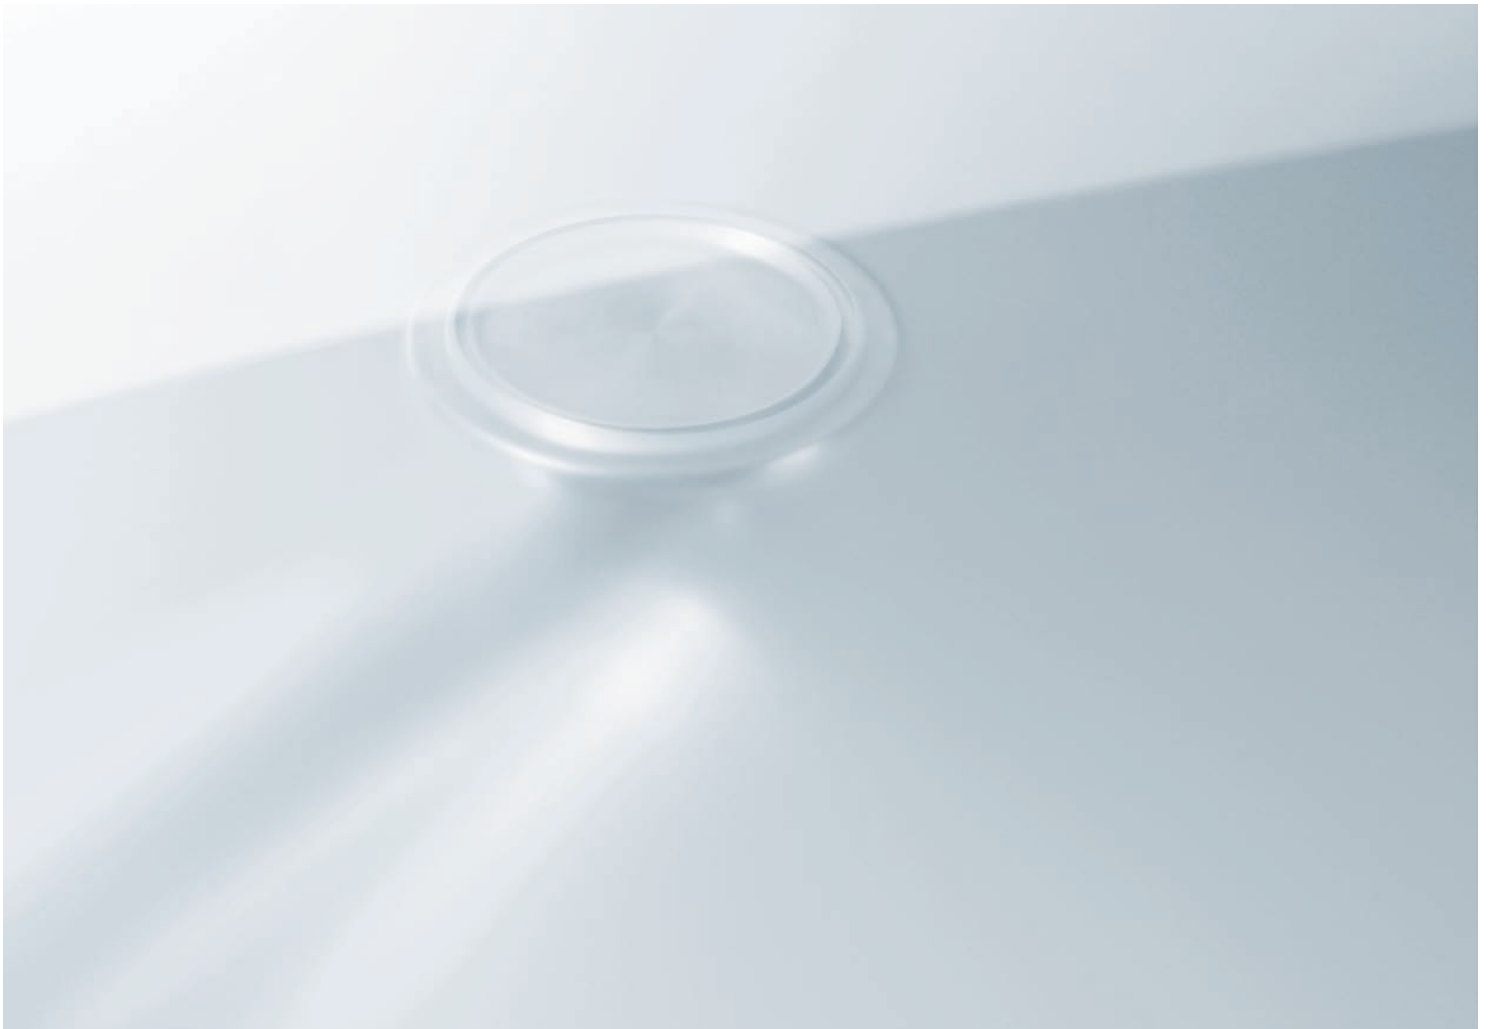

The wooden tabletops are perfectly crafted. The bevelled edges make the tables appear light and airy.

Silicon rings hold the glass top securely and are virtually invisible.

Integrated connection boxes for wooden tops, revolving or swiveling. Cable ducts and channels are additional extras. Multiple configurations for power and data connections.

Transparent and light, the frame is available in black, brilliant silver, polished aluminum or polished chrome.

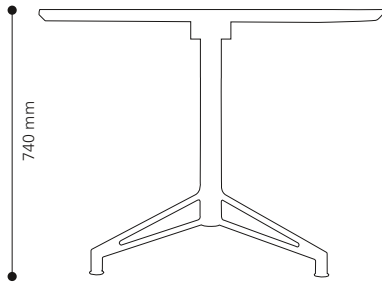

Table with wooden top / laminate surfaces

- _ Feet of cast aluminum
- _ Slim, transparent form
- _ Light and airy appearance
- _ Wide range of dimensions and special sizes available
- _ 30 mm MDF top
- _ Edges bevelled to 13 mm
- _ 0.8 mm wood veneer or laminated finish
- _ Power and data connection boxes, horizontal and vertical cabling
- _ Black adjustable gliders
- _ Easy to assemble and reassemble
- _ Textile screen available upon request

Four-legged

Double T-base

Pars is versatile: four tables, one system – all easy to combine and arrange with each other, a wide range of accessories and maximum functionality. Pars is a modular system for many different occasions. For many different people, in the classroom, in conference centres, halls, canteens, events, meetings, workshops, etc. Solid quality, a solid table – and yet great flair.

A product family that is totally compatible. Double T-base and four-legged versions. Pars is available in both folding and non-folding versions. The system is easy to combine, set up and rearrange. With a variety of dimensions for tables and add-on tops, it can be arranged in any form. The best thing is that everyone can do it. Low weight for rapid moving here and there, and back again. Pars, so simple.

Configure your room simply and easily with Pars. This format provides you with every possibility and freedom: additional space-saving table surfaces can be hung on to existing bases. Combined here with the Mitos visitors chair

Four-legged version, foldable

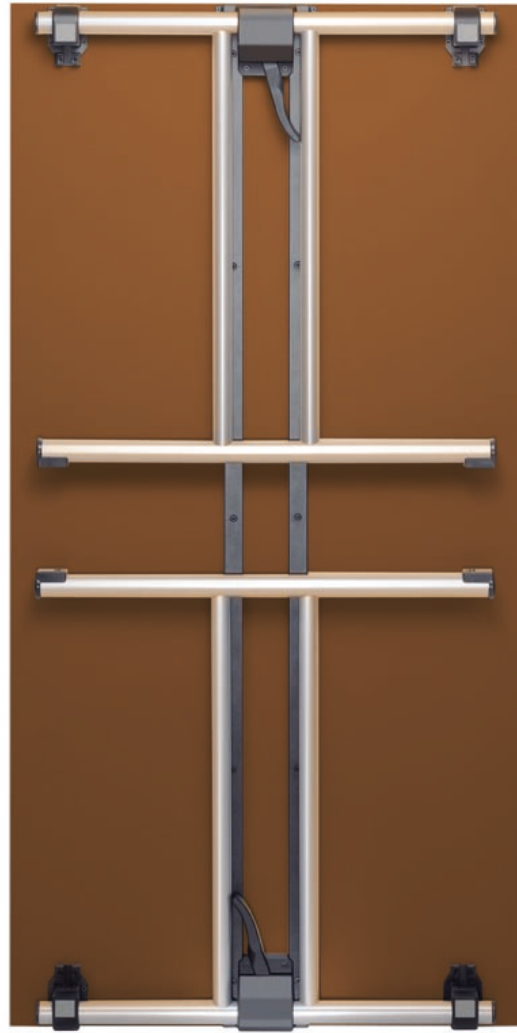

Double T-base, foldable

Pars is available with either a fixed or folding base, table tops in numerous finishings and matching 3mm ABS edging. Up to 15 of the folding light-weight panel tables can be stacked together. A custom-sized table trolley is also available to ease transport.

Four-legged version, folding and stackable

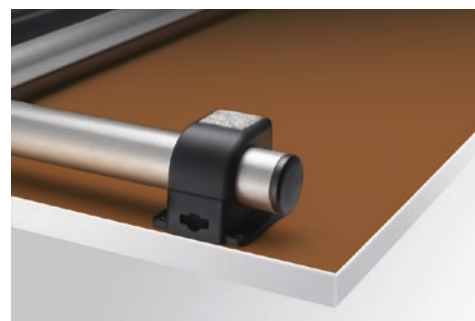

Double T-base, folding and stackable

Add-on table tops for both systems

Simple connection – one system for both bases

Stable revolving joint with stacking buffers to protect table surfaces

Stable brake lever for simple loading and unloading

Integrated connection boxes for wooden tops, revolving or swiveling. Cable ducts and channels are additional extras.

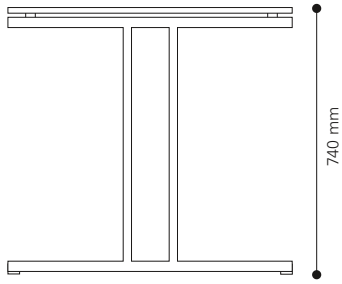

Screens provide additional privacy

The diversity of seating: Pars fits with all combinations and in all configurations. Here with the Sputnik black four-legged base.

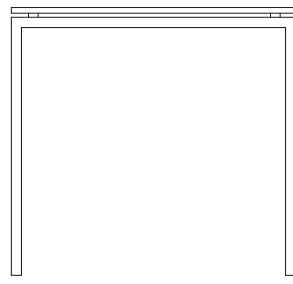

Double T-base

Four-legged

- _ Double T-base and four-legged base are both available as fixed or folding solutions
- _ Table tops with spacers to provide optical transparency
- _ Tops with 19mm laminate surface
- _ 3mm ABS matching edge
- _ Great flexibility afforded by a variety of dimensions, forms and simple combinations
- _ 3 top sizes: 800 / 700 and 450 mm
- _ Add-on table tops: 800 / 700 mm
- _ Effortless linking
- _ Easy to use and space-saving
- _ Accessories: power and data connection boxes, metal cable ducts, textile screens, table trolley
- _ Stack up to 15 tables
- _ Easy to assemble and reassemble
- _ Folding table with 19mm light-panel rigid tops

Table surfaces

Laminate surfaces

light grey beech maple light stone walnut cherrywood

Quatro is the table in its purest form. The simplest and most convincing design for those who want a table to just be a table. Perhaps the ideas behind this table have been stripped to the minimum, because what is so beautifully archaic about Quatro is its statement: a four-legged table, nothing else. Practical, efficient, good. Quatro is light, slim, stable and extremely versatile and accommodating. A table without any sign of pretension.

The table in its purest form – strong and stable. Just a table – but not like any other – for its profile is as versatile as the number of conceivable uses for it. Whether rectangular, trapezoid or square, whether canteen, meeting room or classroom, Quatro is the perfect solution, understated and individual for both work and design.

Quatro is practical and easy to rearrange into every conceivable configuration. Here with Nimbos chairs.

- _slim and simple: Quatro
- _four tubular legs in black, brilliant silver or chrome
- _3 rectangular, 2 square, 2 trapezoid shapes
- _melamine 19 mm
- _tops with 19mm artificial surface
- _3mm ABS matching edge
- _slim black steel casing
- _light construction makes rearrangement easy

Premium products

It is often the case that the terminology surrounding new innovations becomes a hindrance rather than a help. High-flown language is frequently used and misused for promotional reasons and this can obscure information relating to actual, rather than pseudo innovations. This is why we are particularly pleased that customers can now not only experience the quality of our products, they can see it too: we are the first manufacturer to be granted the right to label our products with the official "Premium Product" seal, awarded by the LGA testing company and TÜV Rheinland Group certification body. In addition, we have now won yet another accolade, best "quality office". In effect, this means that every Interstuhl product provides an optimum sitting environment and that all owners of Interstuhl chairs can rest assured that they have chosen the best possible product. This then has an effect on other colleagues and the working day as a whole. And we are more than happy to put a 5-year guarantee for everyone's peace of mind. However, we must share the praise for our innovative seating solutions with the institutes that are always ready to support us in their development; we are sure that we will continue to work together in the future.
